Tulley, 1697. | — | An | Almanack | ¹⁶⁹⁷ for the Year of our Lord, | M DC XC-
 VII. | Being First after Leap-Year, and from the | Creation, 5646. |
 Wherein is Contained Astronomical Observations | from the Suns In-
 gress into Aries, & the other | Cardinal Points, with an Account of the
 | Eclipses, Conjunctions, and other Configura- | tions of the Caelestial
 Bodies : Unto which is | added a brief account of the late Comet | or
 Æthereal blaze. | Calculated for and fitted to the Meridian of Boston |
 in New-England, where the North Pole is | Elevated 42. gr. 30. min.
 But may indifferently | serve any part of New-England. | — | By John
 Tulley. | — | Licensed by Authority. | — || Boston, N. E. Printed by
 Bartholomew G[reen] | and John Allen, for John Usher, and | are to
 be Sold at his Shop below the | Town-House. 1697. 16mo. pp. (16).

Titlepage, surrounded by a line of border pieces, *verso*, "M DC XC VII,"
 vulgar notes, etc.; 12 pp. January to December; 2 pp. quarters, eclipses,
 comets, etc.; at the foot of the last page "Advertisement" of Cotton
 Mather's "Great Examples of Judgment and Mercy," which "will be
 speedily Published," "Printed for & Sold by Joseph Wheeler, at his Shop
 at the head of the Dock in Boston, Price stitch't 8d." Underneath is the
 following paragraph : —

*There are Two Fairs to be Held in the Town of Boston Annu- | ally, one
 on the last Tuesday in May, the other on the last Tuesday | in Octob. each
 Fair to continue four days : Also Two Fairs to be | Held at Providence
 Yearly, the second Wednesday of June, & first | VWednesday of Octob. each
 to continue three days."*

Mr. Sibley gives the year of publication of Mather's "Great
 Examples" as 1696, though it is advertised in this Almanac
 for 1697 to "be speedily Published." The explanation, doubtless,
 lies in the fact that the almanac was put to press in 1696.

Proc. 295. IX. 570.

Of the four Quarters of the Year, 1697.

THe Winter Quarter begins when the Sun enters into *Capricorn* Decemb 10. 1696 48 min past 2 afternoon: If we adhear to & take notice of the dignities of the Planets & their Aspects that happen in this Quarter, we are like to have much Cold and Frosty weather with pritty much Snow & Rain, especially in *January* & *February*.

Of the Spring Quarter, 1697.

The Spring Quar. begins when the Sun enters into *Aries* which this year is on the 9 of *March* 36. min. past 1. afternoon: Saturn being in 6 deg. of *Aquarius* direct, *Jupiter* in 23 deg. of *Libra*. Retrograde, *Mars* in 1. deg. of *Aries* direct, *Venus* in *Taurus* direct, *Mercury* in *Pisces* direct, and the Moon in *Aquarius* Hence according to their Essential dignities, & debilities together with their Aspects that happen therein, this Quar. may prove pritty moist & dripping & something cool in *April* about the middle thereof.

Of the Summer Quarter.

The Summer Quarter begins when the Sun enters into *Cancer*, which happens this year, on *June* the 10. 36 min. past 3 afternoon. perhaps this Quarter may prove indifferent moist, but not without some thunder Showers.

Of the Autumn Quarter.

The Autumn Quarter begins when the Sun enters into *Libra*, which happens this year on *September* the 12. 36 min. past 7 in the Morning: This Quarter may prove something Windy & Wet, and it may be something Cold about the middle of *October*.

Of the ECLIPSES this Year, 1697.

THere will be but one Eclipse Visible to us here in *New-England*, & that will be of the Moon, and will happen on the 25 of *April*, beginning about 11 of the Clock at night, the middle or greatest obscuration, 50 min. past 12. at which time, if the Weather permit the Moon may be seen to be Eclipsed to the quantity of 7 digits. 9. min. 4. sec. upon her south side, passing through the north side of the Earths shadow: it happens in 16. deg. of *Scorpio*, which Astrologers say presageth Wars, Tumults, Dissentions, Violence, Injury, also great Heats, Tempest, Lightning and Drinels, Imprisonments, Captivities, & threatens Depopulation & Slaughters of men, besides many sore & grievous diseases, & much evil in general, especially to those places that are under *Scorpio*.

Here also happens this Year several Remarkable Aspects of the three Superiour Planets, viz. Saturn, Jupitir & Mars. The first will be a Quartile Aspect of h & S , upon the 29 of April, h in 9 degr. of A , & S in 9 degr. of O : The second will be an Opposer Aspect of h & S the 3 of Sep. h in 3 deg. of A & S 3 deg. of O . The third will be a Quartile Aspect of h & J the 30 of Septemb. h in 3 deg. of A , & J in 3 deg. of M .

As concerning the Comet or *Aethereal Blaze* that appeared in the East-South-East in October 1695. just at the break of the Day, for several days, was by information much like unto that which appeared in the *West-Indies* in December 1690 before the great Sickness & Mortality, & great Earthquakes happened there, which was of a dim pale, darkish & Saturnine colour, which Authors say, do threaten Slaughters, Chronick & long lasting Diseases, Snows, Earthquakes, & all Evils of the nature of Saturn: It signifieth many pernicious Evils, Plague, Famine, Exile, Penury, Griet, Trouble & Vexation, high Winds, Shipwracks & Damages in Navigation, Storms & Inundations, Vermin destroying the Fruits of the Earth, &c.

To conclude, the Reader is desired to take notice, that what hath been here inserted in other respects as well as about the Weather, is look'd at to be according to Second Causes & therefore not Infalible, for He that is the first Cause ordereth all Second Causes according to the Counsel of His own Will &c.

Advertisement: There will be speedily Published a small Book; Entituled, *Great Examples of Judgment and Mercy*, or several Relations of Terrible & Barbarous Things endured by many English Captives, in the Hands of the Eastern Indians: whereto is added A Narrative of *Hannah Swarton*, containing a great many wonderful passages relating to her Captivity & Deliverance. Printed for & Sold by *Joseph Wheeler*, at his Shop at the head of the Dock in *Boston*, Price *single* 8d.

There are Two Fairs to be Held in the Town of *Boston* Annually, one on the last Tuesday in May, the other on the last Tuesday in Octob. each Fair to continue four days: Also Two Fairs to be Held at *Providence* Yearly, the second Wednesday of June, & first Wednesday of Octob. each to continue three days. FINIS
